

# Shrubs and Hedges

(615) 848-7070

## *Shrubs And Hedges*

NaturEscape Inc. both plants and removes shrubs on properties, providing top shelf support and advice for those considering either adding or removing greenery from their lawn.

Most lawns benefit from the addition of shrubs or hedges. The two can act as a natural fence between you and neighbouring properties, add character to your lawn, and serve as a handy and aesthetically pleasing way of covering up any imperfections, like uneven ground.

## *High Quality Shrub and Hedge Work*

If you're looking to add a little extra to your lawn, NaturEscape Inc. recommends a shrub or hedge, but because they require a bit of upkeep, we recommend being realistic about the amount of time you will be able to dedicate to their maintenance.

Luckily for you however, if you're intrigued by hedges and shrubs but lack the time to commit to caring for them, NaturEscape Inc. also offers trimming and maintenance services. We'll keep your bushes looking manicured year round! Overgrown shrubs and hedges look sloppy; your lawn is the first thing people see when they look at your home, so you need to be sure you're sending the right message.

For some, shrubs and hedges serve a practical purpose; they're a more attractive alternative to a fence, and can also disguise blemishes you may have on your lawn. For others however, a shrub or hedge is a blank canvas of sorts; they can be pruned into a variety of shapes depending on your mood, acting as a sort of living art piece. No matter what your motivation is, NaturEscape Inc. has the skills and knowledge to maintain your shrubs. We'll keep them in tip top form, day in and day out.

A shrub can act as a complimentary plant to your existing foliage, or you can sculpt it into something visually striking, making it the centre of attention. With a few different types of shrubs to choose from, namely deciduous, coniferous and evergreen, the only thing limiting you is how big your lawn is!

## *Outstanding Customer Service*

We dedicate ourselves fully to every project, no matter how small. Even if you're looking to plant just a select number of shrubs around your property, you can expect the same high level of care as if you were planning on executing a much larger project.

Every lawn is different, and so is every client! Other companies tend to adopt a single-minded approach to lawn care, treating all their clients as though they are one and the same. At NaturEscape Inc., we like to do things a little differently, approaching each project with the unique perspective it deserves. We find that this not only improves our customer service, but it leaves our clients with truly one of a kind work, ensuring that no two lawns look the same.

## *Get in Touch With NaturEscape Inc. Today!*
